AN INDEPENDENT WEEKLY NEWSPAPER CIRCULATING THROUGHOUT
ARTLAND, CHAUVIN EDGERTON, RIBSTONE, MERTON, SIFTON, & MANITOU LAKE

VOL.7;NO.332 CHAUVIN, ALBERTA, WEDNESDAY, OCTOBER 6th 1920 5c. per copy \$2.00 per year in advance

Changes In The Train Service

There is a radical change in the train service now operative.

The Eastbound now leaves Chauvin at 12.58; the Westbound at 17.26

These trains are the New National which operates between Winnipeg and Vancouver. They do the local work between Biggar and Jasper and run as "flyers" on the other sections of their run.

Teachers' Alliance: Good Suggestions

A meeting of the Chauvin Local of the Alberta Teachers' Alliance was held at the residence of Mr. and Mrs. Laws on Saturday evening, Oct. 2nd.

After the regular business for the day had been discussed, an interesting point for the promotion of better educational standards for the country as a whole was introduced by Mrs. G. Saul. Prolonged discussion followed with the result that the following was made for the consideration of the annual convention of the Alberta Teachers' Alliance:

"That the School Attendance Act be so revised to compel children to attend school until they have passed Grade Eight, irrespective of age, unless they are mentally deficient."

The coming spelling match between the Edgerton and Chauvin schools aroused much interest and a suggestion was made that spelling matches should receive more encouragement.

A league should be formed taking in all the schools within the municipality. Shields should be donated for both High school grades and Public schools.

The spelling should be judged on the basis of 75 per cent written and 25 per cent oral. Matches should be held at the school holding the shield within distance limit of 20 miles, over that distance a central point should be fixed for the holding of the matches. It was suggested further that the affairs of the spelling league be placed in the hands of an executive of three, one from the Chauvin Local of the Alberta Teachers' Alliance and the other two from the school boards within the league.

The members of the Alliance would be very pleased to hear the opinions of local people in regard to the advisability of forming the Spelling League, and any further suggestions would be gratefully received.

After all business had been concluded Miss Conboy sang. Her singing was appreciated by all present.

The next meeting will be held on the last Saturday of October at 2 p.m. and we hope to see a goodly number of teachers present from the outlying districts.

Epelling Bee Next Friday

EDGERTON VS. CHAUVIN

On Saturday last the Chauvin Local of the Alberta Teachers' Alliance met and discussed the question of winter-school spelling matches. Mr. D'Alborton's offer to provide transportation for the Edgerton students from Edgerton to Chauvin was accepted favorably. The contest which occurs on Friday night, Oct. 8th, was accepted as a test and if it passes off successfully, an attempt will be made to procure shield so that the future contests may occur regularly. The idea of the teachers is solely the one thought that the spelling of English be thorough.

(Continued on page four)

The question of Evening Classes will be discussed at the close of the Spelling Bee on Friday, October 8th

Intensive Farming In Dina District

* * * * *
* **PRODUCE OF THREE ACRES** *
* **Raised by Lance Moffatt, Dina** *
* 6000 head of Cabbage *
* 2 tons Onions *
* 2 tons Carrots *
* 2 ton Beets *
* 2 ton Parsnips *
* 40 bushel Tomatoes *
* 25 bushel Cucumbers *
* 250 bushel Potatoes *
* Quantity of Cauliflowers *
* and other things *
* * * * *

The above enormous returns have been harvested by Lance Moffatt this fall from his three acre garden in the Dina district.

This three acre garden is just an ordinary prairie garden so far as the lay of the land and the texture of the soil; that is to say it possesses no peculiar difference from the average. The soil is neither very heavy or very light, nor has it been irrigated.

A similar result might be obtained by most all, who like Moffatt and his gardener give but ordinary care and work to their plots. This speaks with an undeniable emphasis as to the high sterling fertility of the soil in this favored district.

Moffatt, of course, finds himself a seller on a falling market just at this time, but he is by no means unprepared for the situation. He has provided storage room for the balance that is not sold this fall, and will be ready for the spring trade.

We trust that his enterprise will be amply rewarded, he deserves all the success he can get. There is little reason why we prairie people should continue to import such huge quantities of vegetables from British Columbia and from yet further afield—the Pacific States, Washington, Oregon and California.

Moffatt has proven the value of intensive farming this year for in addition to this wealth from three acres he has threshed out 1000 bushels of wheat and 1500 bushels of the finest oats from 57 acres.

He has yet 25 acres more to thresh—a total of only 85 acres of land in crop this year.

High Scoring At Edgerton

Any basketball fans who chanced to be in Edgerton on Friday, October 1st had the opportunity of witnessing two interesting games.

The first game was played between Edgerton and Aspen. Aspen was defeated, the score being 16-2. This proved a very lively game and especially so in the 2nd and 3rd periods.

Later in the day the Chauvin team appeared and played against Edgerton. This game was quite lively, but the experience of the Chauvin team brought the Edgerton to defeat with the score standing at 20-3.

It is to be expected that the return games will show a more equal distribution of points for both the Edgerton team and the team from Aspen school played their first games on Friday.

The first game was refereed by G. Saul and the second by C. Laws.

Some Potatoes

Mr. Herbert is producing some very large potatoes some of which weigh over two pounds. He planted some and from them has gained one bushel.

The editor can verify the fact of the size of these potatoes as Mr. Herbert gave him one as a sample.

Airlie U.F.A. Raise Vigorous Protest Against Low Prices

A special meeting of the Airlie U.F.A. was held in the Airlie school house on Monday, October 4th.

Meeting called to order by the President, J. A. Craddock.

C. Mathison—W. Montgomery: that F. Cargill be Secretary. Carried. Resolved that the Airlie U. F. A. No. 625 want advice of the Head Office as to what would be the best policy to pursue to protect the farmers from the decreasing price of grain.

Resolved that the members of this Local are in favour of the Wheat Board being reinstated.

The members are also in favour of holding their grain, if this would be to their advantage. If so, that the Head Office advise other Locals to do the same.

Resolved that the price of Wheat in Alberta be around \$2.40 Oats .75; per bushel, and other grain accordingly to meet the increasing cost of production.

Also that we, the members of Airlie U.F.A. protest the speech of Premier Meighen as published in the Winnipeg Free Press, September 29th, 1920.

Moved by P. Manson—W. Montgomery that the Resolutions be sent to Head Office and also published in Chauvin Chronicle.

Grown On Spring Valley Stock Farm

Forty-seven bushels of wheat to the acre was obtained by George Snell, Sr. from a 65 acre field on 24-44-1.

This was seeded with pure Marquiss wheat upon summer fallow, and immediately prior to cutting it stood a full five foot high in the straw.

This field has frequently been reported by those travelling to be the best field between Chauvin and Lloydminster, over fifty miles. It is doubtless one of the best of the many good fields in our favored district.

An interested spectator, watching the steady stream of oats coming from the separator on the G. Snell, Jr, farm tells us they were coming 17 dumps to the minute. 8½ bushels a minute is not too bad, eh?

Chauvin To Have Skating Rink

Enthusiasm prevailed at the meeting held in the Union Bank rooms on Thursday last. The skating club decided to go ahead and have a rink. Mr. Stewart was elected Secretary for the season. The handsome offer of Pierce Bros. to level off the lot between the telephone office and Swans garage was thankfully accepted, and things altogether are in fair shape to be moving.

It was decided to commence to sell tickets at once and to arrange the necessary preliminaries with a view to having a rink in good running order for a complete season.

Tickets may be obtained from the committee: Misses Freeman, Rodden Djuve and Nachtergaele.

Threshing is once more resumed in full swing and the stooks are being changed into bins of good grain, and straw piles.

Mrs. L. E. Roy is enjoying a visit from her brother, from Montreal.

What is the use of publishing market prices these days. There are none but paltry ones for our produce.

Attempt Being Made In Alberta Appeal Court To Have Liquor Export Act Case Quashed

The Alberta Liquor Export Act was the target for verbal execrations and not a little ridicule when the case of Rex vs. Bulmer came up for appeal in the appellate division of the supreme court of Alberta last Friday morning. The case simmers down to an attack on the validity of this measure and the power granted to the attorney general to say who shall and who shall not conduct a wholesale liquor business for the purpose of exporting liquor from the province.

The case is in the nature of a test affair, with a fair possibility of the whole act being declared ultra vires, and of such importance that Chief Justice Harvey has ordered an extra member to sit in the court en banc to avoid any possibility of a repetition of the famous Gold Seal vs Dominion Express company case where the four members of the court divided evenly in accordance with the desire to avoid a split. Mr. Justice Hyndman has been added to the court, sitting with Chief Justice Harvey and Mr. Justice Stuart, Beck and Ives.

May Go To England

In any case whatever may be the decision an appeal is certain to be carried to the supreme court of Canada while it has been hinted that both sides are prepared to carry the case to the privy council for a final decision. H. H. Parlee, K.C. appearing for the attorney general's department asked that in the event of their lordships seeing fit to quash the magistrates' conviction that leave be granted to carry the case to Ottawa.

The Liquor Export act was harshly criticized by C. C. McCaul K.C. who appeared for the appellant Bulmer.

Section 5A of the act was a particular point of attack on the part of counsel for the appellant. This section sets forth that the lieutenant-governor-in-council may, so far as it is within the jurisdiction of the provincial legislature, pass certain regulations setting forth the kind of premises on which a liquor export business may be conducted.

Says Act Is Ridiculous

"The words 'so far as it is within the jurisdiction of the provincial legislature,' said Mr McCaul, "are an absurdity, merely surfaceage and indicative of the ignorance of the person who drafted the act. No law student with two months' experience would put such a ridiculous thing in an act of parliament"

In the test case at present being passed upon by the appeal's court the appellant, G. W. Bulmer, made application in July to start a liquor export business in the town of Chauvin. He understood that everything was in order and that his ware house came within the law. A constable inspected the premises, and the appellant then proceeded to ship in liquor for storage in his warehouse.

Permit Was Refused

Subsequently the attorney general refused to grant the necessary permit provincial liquor officials swooped down on the premises, and the warehouse placed under lock and key, with the keys resting in the pocket of Inspector Hodgkins, of the provincial liquor department. It is understood that something like \$35,000 worth of liquor is included in the seizure. Bulmer was brought before Magistrate McLeod in the provincial police court and fined \$100 and costs on a charge of being in illegal possession of liquor. When the liquor export act was

amended a few months ago, amendment section 5a gave the lieutenant-governor in council the right to pass regulations with respect to all matters pertaining to the export liquor business. These regulations were passed, making it necessary to obtain a permit from the attorney general before engaging in business. The contention of the appellant is that the act is ultra vires, and that the effect of the decision in the Gold Seal vs Dominion Express company case was to make the entire act unconstitutional and invalid.

Claims Authority Exceeded

The principal grounds for appeal, even if section 5a has not been rendered invalid by the decision in the Gold Seal case, are that the lieutenant governor in council has no right to give the attorney general the power to grant permits.

A summary of the section of the act around which the dispute revolves reads as follows:—"The lieutenant-governor in council is authorized to make regulations regarding the premises in which liquor shall be kept for export purposes, for the inspection of the said premises and the liquor kept therein, and providing for the registration of all persons carrying on such export business and for returns by all such persons of liquor received, sold and on hand, such regulations to be published in the Alberta Gazette, and upon publication to have the same effect as the provisions of this act."

Approve Of Premises

In accordance with the authority delegated to him by the section of the act quoted above, the lieutenant governor in council issued the following regulation which was published in the Alberta Gazette under date of July 19:—"No person within the province of Alberta other than a brewer or manufacturer of liquor duly licensed by the Dominion of Canada, shall receive, sell or have on hand any liquor for export business in the province of Alberta unless and until the attorney-general of the province of Alberta approves of the premises in which the said liquor is received, sold or had on hand."

After the passing of the 1920 amendment and the special regulations by the lieutenant governor in council, the attorney general took the stand that he would not permit any concerns that were not in business before the passing of the amendment to conduct an export business within the province and accordingly the application of the appellant was refused.

Cite Calgary Case

In the Gold Seal case at Calgary in which certain sections of the Export Liquor act were declared ultra vires, Chief Justice Harvey and Chief Justice Stuart declared in favor of the act, while Mr Justices Beck and Ives stood out against the act. Mr Justice Hyndman was called in to break the deadlock and declared in his opinion the act, or certain sections of it, were unconstitutional.

The lawyers on the case concluded their argument shortly before noon on Thursday and the court reserved judgement. It is expected that a decision will be handed down during the course of the next few days.

GOOD FARM BUILDINGS PAY

Whether you are going to build a house, barn, or just a little chicken coop, it pays to build well. Good buildings not only last longer, but add to your profits and increase the market value of your farm. Take the matter of the poultry house. Hens will lay more eggs in warm sunny houses than in cold, drafty, dark sheds. So whether you have only a few hens or a hundred it pays to have a good hen house. Our 'Build by Plan' method saves time and money. Come in and let us tell you about it.

Our Weekly Sermon

THE ETERNAL NAME

By REV. MILLAR, Chauvin

Is. 3: 13, 14, And Moses said unto "Behold, when I come unto the children of Israel, and shall say unto them, The God of your fathers hath sent me unto you; and they say unto me. What is his name? what shall I say unto them?" and God said unto Moses. I AM THAT I AM: and he said, Thus shalt thou say unto the children of Israel, I AM hath sent me unto you.

A new day was dawning for the Israelites, the era of independance as a nation. So there was given to it a new view of God, and new terms to express that idea. Why did Moses ask to know the name of God. It was that he might have credentials when he was asked for his authority when he told his mission to his countrymen.

His commission was to lead the Israelites out of Egypt and the first thing he had to do was to interpret God to them. To do this a new name was necessary. No name can do this adequately, yet some name must be used. So we revere the name of God as well as Himself.

It is probable that the name was not entirely new to Moses or the Israelites. An entirely new name would have meant a new God. They knew the meaning of the words used in the new name.

Two thoughts are contained in the name: first the permanence of God, and, second the permanence of life.

The first thought is that God lives perpetually in the present tense. We live, it may be, in the past tense when life was serener; or, we may be living in the future when the blessedness of God's presence will be given to us. But we may live in His presence all the time.

Then again we have the thought that life is permanent. Christ said, "Have ye read that which was spoken to me by God, saying, I am the God of Abraham, and the God of Isaac, and the God of Jacob." God is not the God of the dead but of the living." Christ emphasizes the eternal presence, but teaches the immortality of the soul.

The mysterious "I AM" is the ever existent Christ. He said to the Jews "Before Abraham was I am." He appeared many times before He came in the flesh.

When God wants a man to do some useful work, He gives him a fresh thought about Himself. Moses saw that the work given him to do was God's work. God was to be a Redemer of His people, and lead His people out of slavery into the promised land.

The credentials which God gave to His church. "As my Father sent me into the world, even so have I sent them into the world." So we should be encouraged in our work for it is God's more than ours.

Consumer Will Pay

With the exception of railway employees and C.P.R. shareholders everyone expresses strong hesitment over the decision of the Board of Railway Commissioners granting increase in freight rates in Western Canada and 40 per cent increase in the east. In spite of protests there is not much doubt but that the increases will stand and the Canadian people will dig up a hundred million extra dollars that will be collected under the new rate and other millions that, as a result of the higher freight cost, will be added to the price of everything used by the long suffering ultimate consumer. Freight rates are up 35 per cent until December 31st and then drop back to 30. Passenger rates advanced 20 per cent and after the end of the year the increase will be 10 per cent. The total increase will amount to about \$25 per year for every man, woman and child in the Dominion. Incidentally, however, a few hundred thousand railway employees will benefit through wage increases and the ten per cent dividend to C.P.R. shareholders will be paid, all without digging into the cash reserves of that great corporation. Incidentally, too, a good many people are beginning to wonder whether railway commissions and the boards of one kind and another that have been formed of recent years in this country, ostensibly to look after the people's interests in arranging rates with corporations selling public service, are not giving the public the worst of it and showing more concern for the interests of the corporation than for the rights of the public.

This decision in freight rates is an example. It was apparent from the start that the railways were certain to receive a substantial increase in rates. The commissioners were very solicitous for the interests of the carriers and hurried through the hearing of the case in short order. They claim to have earnestly considered all the facts and circumstances, with the result noted: the railways received practically everything they asked for; the public's side of the case was found to have nothing in it. This kind of thing has been occurring so often of late that people have mighty little confidence in any official board investigating conditions where public interests clash with those of the corporations. Possibly that is what the public is for—to get it in the neck. At any rate that is where and how the public is catching it these times.

The increased freight rates will be chiefly paid by the farmers. They will have to pay it on what they sell and upon what they buy; will pay it directly and indirectly; directly upon anything they ship or receive; indirectly in the advanced price that will be put on every commodity as a result of the increase. For an increase in freight rates, like an increase in customs tariff, mounts upward as it is passed from hand to hand and the last man in the line pays the whole shot, the freight increase itself, as well as all the additional increases that sincere grabbers all along the line are able to add to the prices of the commodity using the freight increase as the excuse for their action.

The increase will hit the farmer pretty hard on this year's crop, since the bulk of it will be marketed before the end of the year and, anyway, the extra freight will be 30 per cent after that. It is the logical time all right to give effect to the freight increases, from the railways' point of view. Ten per cent will be paid hereafter as before on the stock of the C.P.R. The shareholders have got what they went after, ten per cent on the stock after all expense and depreciation is written off and the security of the business assured; employees will get theirs—that is a good living wage. How about starting a movement to ensure farmers a good living and ten per cent?

Aren't they as much entitled to it as railway stock owners and their employees?

It is easy to be cheerful when those around you are cheerful—so, from a selfish standpoint, it is worth while

Prices Declining

While not disposed to definitely commit themselves, officials of the Dominion government in touch with matters affecting the cost of living are disposed to the opinion that the tendency from now on will be downward. They point to the steady decrease in the past few months in wholesale sugar quotations, the prospect of a lower price level for such commodities as flour and milk, and the announcement that the peak of the cost of clothing has been reached as sure indications that the five per cent decrease in the family budget, indicated in the September report of the department of labour on prices, is likely to be followed by further decreases.

The prospect of a certain amount of unemployment during the winter months, which will lessen the ability of the public to buy, is also regarded of the public to buy, is also regarded living situation.

While there is no disposition to believe that there is any possibility of getting back to pre-war prices for a long time to come, a steady betterment of conditions for the purchasing public is confidently looked forward to.

Politics or no politics, if a woman as a perfect figure and complexion she isn't going to lose much sleep over who is elected premier.

If you would keep the wrinkles out of your face, keep sunshine in your heart.

Paint Protection vs. DECAY

Any surface that is covered with *Glidden Endurance Paint* is well covered and will not decay easily, for *Glidden* protection is good protection and saves the cost of frequent repairs.

Glidden Endurance Paint prevents decay, keeps out moisture from the wood and resists wear from changing weather conditions without scaling or cracking.

Glidden Endurance Paint stays fresh and bright for a long time, wears well and looks well—and because of its durability is the cheapest paint you can buy.

For everything about the home or farm that needs to be painted, stained, enameled, varnished or finished in any way, there is a *Glidden* product made especially for that purpose.

We have them. Color cards free.

TAX SALE**

SALE OF LANDS IN THE MUNICIPAL DISTRICT OF RIBSTONE NO. 421 FOR ARREARS OF TAXES.

Notice is hereby given that certain lands in the MUNICIPAL DISTRICT OF RIBSTONE NO. 421 will be offered for sale for arrears of taxes and costs, at the Hamlet of Ribstone on Tuesday the 16th day of November, A.D. 1920, at ten o'clock in the forenoon, in the Municipal Hall.

A printed list of the said lands may be obtained from the Secretary at the Municipal Office at Chauvin at any time after the 14th August on application therefor.

Dated at Chauvin Alberta, this 8th day of August A.D. 1920

T. H. SAUL, Sec.-Treas.

Arrears and costs may be paid at any time before time of sale.

Winona U.F.A.

Having considerable of the modest violet in its composition, Winona seldom boasts her accomplishments, although she is continually doing something for the benefit of the community. The above spasm is the result of the latest. Having heard that the only poll for the district in the forth-Dina Post Office, and that a large number of our people would have to travel from six to twelve miles to reach the poll, and the same distance to get home again. Well, I won't tell you what was said. Anyway Major Lowery was appealed to, and now we will have a Poll at Winona School. This to cover Township 45-2 North of the River and all of Township 46-2 Does it not pay to have an organization here? That stunt alone is worth the membership fee

We are just emerging from the rush of harvesting, and although some of us are very busy threshing, and more of us would like to be, we are beginning to look forward to our regular meetings again. On Saturday evening October 16th, a great meeting will be held in Winona school. This will be in the interests of Prohibition, we are going to have a splendid speaker in the person of the Rev. N. R. T. Braa of Viking, and we expect to have another also. Refreshments will be served by the U.F.W. We extend a hearty invitation to non-members. Everybody come and hear about this vital question, you can't know too much about it.

Ribstone Notes

This lovely weather makes the thresher smile.

The school nurse has been visiting the schools around this district.

Mr. Clyde Walwrath, Mr. Oscar Walwrath, Misses C. and Hazel Walwrath were at Ribstone L. D.S. Church last Sunday. We are glad to have them back with us again on Sundays as they are living in Edam.

Mr. and Mrs. A. Dallyn and daughter Elsie and Mr. Wm. Dallyn Sr. left on Sunday morning for an auto trip to Edam, Sask. where they expect to spend a few days.

We are glad to be able to report that Mr. Victor Dallyn is able to be up and around again.

Mr. John Hilker returned to Artland last Friday.

A large shipment of lumber and other materials are here for the building of our new station.

It is also whispered that we might have a skating rink here this winter, which will give us some sport on his farm.

Mrs. L. Irvine has returned from the States where she has been for about two years.

Mr. Edward Russel is back in Ribstone again.

Value All The Time

Official confirmation of press dispatches from Detroit, announcing that there would be no reduction in the price of Dodge Brothers Motor Cars, has been received by A. C. Gifford, the Dodge Brothers dealer in Chauvin. A telegram from C. W. Matheson, acting general sales manager to the local dealer reads:

"Dodge Brothers policy has ever been to give full value for the price asked. There will be no reduction in the present prices of Dodge Brothers motor cars. Newspaper reports to the contrary are absolutely untrue."

"Dodge Brothers announcement was no surprise to us" said A. C. Gifford. "In fact it is only a substantiation of Dodge Brothers business principles. At no time have they ever demanded an excess amount for their product. As in the past, they will continue in the future to demand a fair return for their efforts."

"The mere fact that the demand for Dodge Brothers motor cars is still so high, despite the

great expansion program at the factory has absolutely nothing to do with the decision to continue the present prices. In marketing their car Dodge Brothers have never made a point of price and will never sacrifice the quality of their product to enter price competition."

FIRRE PREVENTION DAY

The governer General has, by proclamation, set aside Saturday, October 9th, as a day on which to specialy emphasize the great loss which Canada natural and created recourses.

At a time of high building costs and acute scarcity of materials, we are burning buildings at a criminal rate. Our fire loss of last year, viz. \$23,500, 000, or approximately \$2.90 per capita was the highest per capita in the world. Not only this is a complete loss of national wealth, but it's replacement creates increased competition thus enhancing prices for new building. How can we hope to overcome the housing shortage, when in Ontario alone, last year 5,804 dwellings were damaged or destroyed by fire causing a loss of \$1,753,332? There were also 744 farm barns destroyed, at a loss of \$1,189,906, of which \$557,736 was uninsured.

Lightning damaged or destroyed 1,102 buildings in Ontario, involving a loss of \$506,885 of which \$212,778 was not covered by insurance. None of these farm buildings were equipped with lightning rods, whereas but two buildings protected by lightning rods were damaged and these to the amount of \$22 only.

Matches were again responsible for the largest number of known fires, 1,148 in Ontario originating therefrom. Practically every fire due to matches is the result of carelessness.

Public education and recognition of personal responsibility are essential to a reduction of the fire waste. It is particularly essential to interest the younger generation, through the Canadian teachers, in the efforts being made towards a reduction of the fire loss.

Fire Prevention Day will give a splendid opportunity for bringing this subject to the attention of pupils and should produce good results.

DUBLIN KIDDIES PRAY FOR DYING LORD MAYOR OF CORK

A scene outside the Church of the Colgate Fathers in Dublin during the special service for the dying Lord Mayor of Cork. Inside the Church were four thousand railroad workers

while outside the edifice little children knelt in the street and offered up prayers for the release and recovery of the hunger striker. The photo shows praying kiddies.

U. F. A. & U. F. W. A..
Membership Drive

The Central Political Committee of the U.F.A. have now made definite plans for staging a membership drive to cover the whole province the first week in November. Manitoba and Saskatchewan have completed arrangements for a similar drive for exactly the same time. Therefore this drive will extend throughout the three provinces.

The object throughout the drive in each province will be the same—to

collect the sum of six dollars from every farmer in the province, and to make every farmer and farm women, farmer's son and farmer's daughter, member of the U.F.A. and U.W.F.A. and political members in good standing. The plan is that one dollar out of each six will go into a central organization fund, out of which all expenses of the drive will be paid. The drive is to be self-supporting. It is to be paid for entirely out of the proceeds of the drive, but it is planned that the local, District Political Association, and Central will each receive one dollar net from the member-

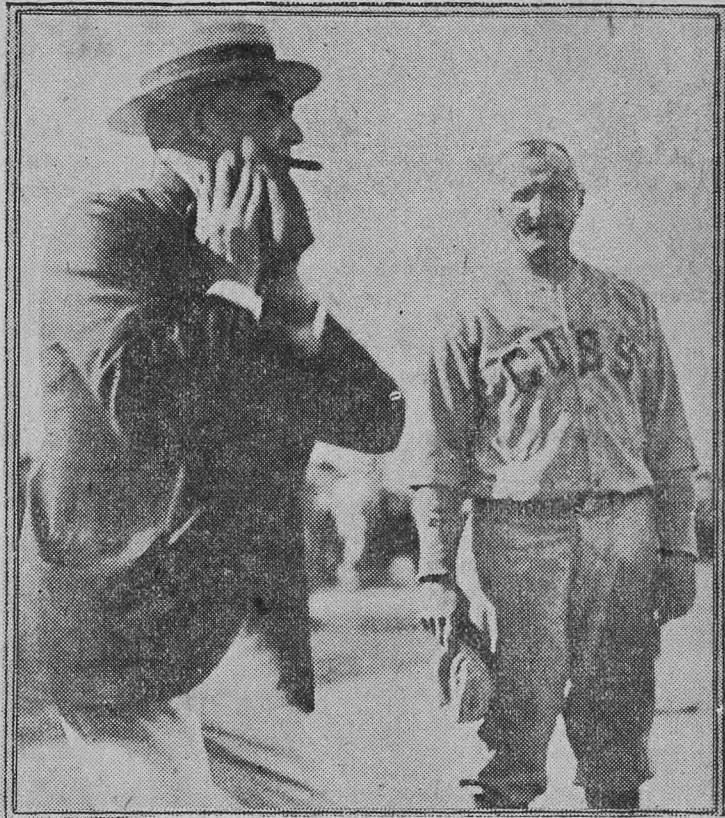

ship subscription.

This is a critical moment in the history of this organization. Last year the decision to take political action and the large district conventions in every constituency aroused great enthusiasm. Ten thousand new members were added to the organization. This enthusiasm naturally has not remained at boiling point, since, there is no election immediately in sight. It is imperative, however, that the organization be kept at full strength and that every effort be made to make the U.F.A. one hundred per cent strong in every district. All the forces of reaction and special privilege are arrayed against the U.F.A. with determination and with resources greater than ever before, to smash this farmers' movement. The Premier of Canada, has publicly attacked Hon. T. A. Crerar and H. J. Wood as leaders of "the wreckers" of Canada. That cry and the old "loyalty cry" and every other political subterfuge will be used against the organization. Some people will believe what they are told. It is imperative that every farmer and farm woman be got into the organization where they can learn at first hand what the organization stands for. Only then will they be proof against the insidious influences which will be brought to bear.

This is the biggest united co-operative effort to enlist every farmer, and farm woman in the farmers' movement that has ever been attempted. It should yield big returns. A similar drive put on in Manitoba for ten days last March yielded \$49,507.85; while the Liberty Drive in Saskatchewan, put on in October, 1919, and planned for one day only, yielded \$82,456.60. There is no question that results can be obtained in every constituency and every district. With crop conditions as they are in Alberta this year, and with the efficient machinery of district organizations, the prospects for such a drive are splendid. It ought to be easily possible to reach the objective of fifty thousand members for the U.F.A. for 1920. The committee want also to enlist every member of the U.F.A. and the U.F.W.A., as an active member of the political association. They believe it can be done.

Cheaper Flour

Abolition of wheat control and getting back to pre-war conditions in milling of flour, will mean a reduction in the price of Canadian flour to consumers. A number of the large mills have sent out their price lists in preparation for putting the former grades of flour on the market, and in all cases there is a reduction of some 25 cents per bag in the cost of flour of the grade approximating the government standard grade. Very little, if any, of the new grades of flour are yet on sale, because the mills are seeking to clear out their stocks before bringing the patents on the market again.

HARDING IS A REGULAR BASE BALL

FAN CATCHES LIKE A VETERAN

The Chicago Cubs piloted by Manager Mitchell made a pilgrimage to Marion, and visited the most illustrious son of that city. Returning the compliment Senator Harding showed the cheery cubs that he had not forgotten the days when he played the national sport in the back-lots of Mar-

ion. The photograph was made just as the senator collied a hot one from Mitchell standing by with an approving eye has made up his mind that Harding would fit in on his team.

However, with the opening of the mills for grinding the 1920 wheat crop, all grades of flour will be turned out as they were before wheat and flour control was established. When this is done, while some of the highest patents will be more costly than the

present government standard grade, the grade equal to standard will be cheaper and there will be several cheaper grades again.

Most of the standard flour still held by the mills, it is said is being cleared out to fill large export orders, and the warehouses are expected to be practically emptied when the grinding of 1920 wheat gets into full swing.

Save for College

THE wisest thing you can do for your boy is to teach him to save. Open a savings account for him in this Bank to-day, and let him prepare to meet his college expenses.

The account will steadily grow, when he knows he is saving with a definite object in view.

\$1.00 deposited every week for 10 years, with interest at 3% compounded semi-annually, will amount to \$695.72. 441

Spelling Bee

Next Friday

(Continued from front page)
oughly improved. The matter of having the High and Public schools contest on an equal basis was long and thoroughly discussed. Eventually the following recommendations were made which will be submitted to the Trustees of the shields if the matter is continued.

(1) There should be a board of Trustees, one chosen by the Chauvin Local of the A.T.A., two chosen by the schoolboards which may contribute.

(2) There should be two shields, one to be competed for by the High Schools from Wainwright east to the Sask. border, the other to be competed for by all public schools which have any land within this municipality.

(3) The contests should be computed on following basis, oral 25 per cent, written 75 per cent.

(4) The contest to be spelled off at home of holder of shield with distance limit of 20 miles, then a central point to be chosen by the executive.

(5) Any school holding the shield for one year continuously, to have its name engraved upon it.

(6) Further regulations to be made by trustees.

The spellings for the present contest are to be chosen from the three issues of the "Chronicle" immediately preceding the match. The Inspector, Mr. Fuller, and the primary teaches of Edgerton have been asked to take charge.

The Edgerton students are being quartered among the different homes in Chauvin for the night and on the following Saturday afternoon a basketball tournament will take place. The following teams have been invited; Edgerton, Wainwright, Edinglassie, Chauvin.

The question of a school fair was also discussed by the Local of the A.T.T., and it was decided to consult the Inspector, Mr. Fuller, and then make the necessary preparations for next year, if suitable.

Chauvin W. I. Rest Room Campaign

The Chauvin Womens Institute are making good progress with their campaign for the Ladies Rest Room.

It is proposed to have very comfortable quarters neatly furnished where the visiting ladies can find accommodation and convenience whilst in town—a place to tend the younger children—to write any necessary letter—to meet another lady, etc.

Contributions to this worthy object will be gladly received, and farmers and others are asked to donate at least the value of a bag of grain.

Donations may be left at A. C. Gifford's or at L. E. Roy's.

The Chauvin Women's Institute will meet on Wednesday October 13th at 2.30 p.m. in the I.O.O.F. Hall. All ladies are welcome and are cordially invited to attend.

The results of the best garden and tidest yard competition were announced last night. Mrs. G. Woodward and T. H. Saul being the lucky ladies. The prizes were given by the Chauvin Women's Institute, and were ten dollars for first, five dollars for second. The judges were Mesdames Holbrook, Miller and Armour. These ladies were later entertained at the tea hour by Mrs. L. E. Roy and the directors of the Women's Institute, when Mrs. Parcels presented each of the judges with a bouquet of blooms from her own garden.

AT HOME IN HONOR OF MRS. SADLIER

A very pleasant social event took place on Wednesday afternoon September 29th, at the home of Mrs. Roy when some old friends of Mrs. Sadlier of Trochu, who is visiting Mrs. Freeman, were invited to meet her and renew old acquaintance.

Quite a number of ladies were present, and a very pleasant afternoon was spent by all.

Some musical items added to the enjoyment and were much appreciated.

A dainty lunch was served by Mrs. Roy and Mrs. Freeman, Mrs. Gifford poured tea. All expressed the feeling that this was one of the most enjoyable social events that had taken place in Chauvin.

It is somewhat extraordinary, but man is the only animal that cannot perceive approaching rain. All other animals show uneasiness when rain is coming. At such times dogs get restless, cats sneeze and wash their ears, frogs croak with a loud harsh noise, owls screech, peacocks scream, and ducks and geese are unusually noisy. This is said to be due to the relaxation of their nerves by the damp air, which makes them uneasy.

The Doukhobours who threaten every few minutes to get out of the country bag and baggage and hit for some other country seem likely to remain in Alberta. Their decision is not the result of any very great pressure on the part of the people of the province.

Chauvin School Report

SEPTEMBER 1920

The figures immediately following a name are the results of the monthly examination tests, which are based on the work already covered. A mark over 50 is satisfactory. A mark below 50 signifies that the parent should see that the student gives greater attention to his studies during the next month. The H.S. students are being asked to devote two hours each evening, five evenings per week, to the preparation and review of their studies.

GRADE XI—Dorothy Saul, 35, 65, 72 Florence Cahill, 50, 30, 64.

GRRADE X—Eileen Ellis, 20, 5, 52; Eunice Hass, Absent

GRADE IX— Wm. Ellis, 50, 15, 57; Eleanor Harris, 45, 15, 58; Gretchen Richardson, 35 5, 54; Erma Hass, 25 15 51; Thelma Villa, 20, 5, 54;

GRADE VIII—Wm. Saul, 73, 53; Ethel Goede, 55, 38; Winnifred Royce 40, 45; Irvine Goede, 20, 24;

GRADE VII—Geo. Woodward, 20, 28; Elma Hass, 0, 45; Edward Cahill 15, 28;

The questions or the above were taken from previous departmental examination papers.
